Conference Description
The purpose of this program is to update Respiratory care practitioners and nurses of the current evidence impacting patients with pulmonary disease.

Conference Objectives
At the completion of this educational offering, the participant should be able to:

- Review the most clinically relevant radiologic techniques in pulmonary and critical care medicine.
- Review in detail the emerging use of bedside ultrasound.
- Discuss novel imaging techniques that are being developed for routine usage in these complex patients.
- State two reasons mistakes happen in healthcare.
- Identify one way mistakes can be prevented.
- Explain the difference between commercial and government insurance for lung transplant.
- Explain the importance of being a CMS approved center for lung transplant.
- Discuss the surgical process for lung transplantation.
- Review the immediate post-op implications after lung transplant.
- Review infection risk after transplant.
- Present information regarding the affects of lung transplant life-long.
- Discuss the most common diagnosis for lung transplant.
- Explain the timing of transplant for the common diagnosis.
- Explain how the LAS works with the allocation of lungs nationally.

ber 7, 2012. No refunds will be made after that time.

Credit
Application for accreditation through the Continuing
Respiratory Care Education (CRCE) system of the American
Association for Respiratory Care (AARC) has been
submitted requesting CRCE hours for all topics. Individuals
may earn a total of 6.75 contact hours at this program.

Indiana University Health, Indianapolis
(ISNA No. CNEP 10-01, 6/1/13) is an approved provider of
continuing nursing education by the Indiana State Nurses
Association, an accredited approver by the American
Nurses Credentialing Center's Commission on Accredi-
tation.
Nurses will be granted 6.75 contact hours. Attendance at
the entire event and submission of an evaluation are
required to obtain contact hours.

All registered participants will receive a
verification email containing workshop
schedule and location.
